### **Product Description**

#### **Products Introduction of the Stainless Steel Large Outdoor Hanging Candle Lantern**

This Stainless Steel Large Outdoor Hanging Candle Lantern is the best seller products of our factory. The European decorative stainless steel lantern is made of stainless steel and tempered glass. For the stainless steel, we use SS430 which is around 0.7mm thickness to make the lantern. For some components we will use different thickness of the stainless steel because of the construction requirement. For the glass, we use the tempered glass, which is around 2.6mm thickness. And for the round glass tube, we use 2.5mm borosilicate glass tube.

Our metal lanterns let the flicker of candlelight take center stage. Solid sheet metal frames feature broad panels of clear glass. Fitted with handles, the lanterns can be easily transported to cast a warm glow where needed.
